

Rehearsal Room 2 LX Tech Spec

Lyric

Please note rehearsal room 2 has no dedicated lantern and cable stock. The availability of fixtures and accessories is entirely dependent on what isn't being used in our other spaces. Please enquire with the Head of Lighting as to the availability of any equipment.

Control

ETC Element

Dimming

(The number of dimmers available is dependent on what is in use in the TV studio as both spaces share the same dimmer rack)

Min of 48 Max of 72 ways of ETC Sensor 3 2k Thru Power Dimmers/Non Dims

44 ways over head on the truss (lectriflex sockets)

28 ways at floor level (lectriflex & 15amp sockets)

Power

Various 13amp power around the room

32amp Single Phase (stage right wall low level)

63amp Three Phase (stage left wall high level)

Rigging

The space benefits from a Truss Grid suspended on 6 motorised chain hoists. At its maximum out dead the bottom rung of the truss sits at 4.25 meters.
